

AHM ZAFIR HASAN

FULL-STACK DEVELOPER • .NET & WEB SYSTEMS

Dhaka, Bangladesh • +880 1747 544 273 • ahmzafirhasan@gmail.com

Portfolio: zaff-e.github.io • GitHub: github.com/Zaff-e • LinkedIn: in/zafir-hasan-developer

TECHNICAL SKILLS

- **Languages:** C#, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Backend & Web APIs:** ASP.NET Core (.NET 9), ASP.NET MVC 5, Node.js, Express.js, RESTful Web APIs, WebSockets
- **Databases & ORM:** Microsoft SQL Server (T-SQL), MongoDB, Entity Framework Core, Mongoose, 3NF Normalization
- **Frontend Development:** React 19, Angular, Component Architecture, Single Page Applications (SPA), Tailwind CSS
- **Architecture & Security:** Master-Detail Systems, Repository Pattern, DTOs, JWT Bearer Auth, bcrypt Hashing, CORS
- **Tools & Cloud:** Git, GitHub (Branching, PRs, Code Reviews), Postman (API Testing), Microsoft Azure, VS Code, CI/CD

SOFTWARE ENGINEERING PROJECTS

TechNova E-Commerce Platform | *Node.js, Express.js, MongoDB, WebSockets, bcrypt*

[GitHub](#) ■

- Architected a modular backend using **Node.js & Express.js**, deploying 12+ RESTful endpoints for user auth, product catalogs, shopping cart sessions, and cash-on-delivery order processing.
- Modeled normalized document schemas and references using **MongoDB & Mongoose**; integrated **WebSockets** for real-time inventory level updates without client polling.
- Enforced secure password protection via **bcrypt** hashing and session tokens; automated transactional order validation and dynamic invoice tracking.

Product Catalog & Master-Detail System | *C#, ASP.NET Core (.NET 9), EF Core, SQL Server, React 19*

[GitHub](#) ■

- Engineered high-throughput RESTful Web APIs handling normalized Category-Product-Brand master-detail CRUD hierarchies, utilizing EF Core Code-First migrations and DTO contracts.
- Developed dual frontend clients: Angular client with dynamic child brand insertions, and React 19 client featuring instant search filtering and dual Grid/Table view modes.
- Implemented memory-safe multipart image streaming with GUID file naming to prevent server collisions, coupled with zero-latency client-side thumbnail previews.

Skill-Commerce Booking Marketplace | *C#, ASP.NET Core, Angular, SQL Server, REST API Architecture*

[GitHub](#) ■

- Serving as backend and database lead on team capstone designing **RESTful API services** for customer bookings, provider scheduling, and profile management.
- Established API contracts, led daily standups, and managed the team repository on **Git/GitHub** with active branch protection and peer code reviews.

Power Plant Operations Database Architecture | *Microsoft SQL Server, Relational Design (3NF), T-SQL*

[GitHub](#) ■

- Designed a normalized 3NF relational database schema across 12+ tables modeling monthly power generation metrics, plant operations, and fuel types from industrial records.
- Transformed raw operational spreadsheets into structured SQL tables, enforcing primary/foreign keys, referential integrity, and indexed queries for high-speed reporting.

EXPERIENCE & TECHNICAL TRAINING

IsDB-BISEW IT Scholarship Programme | *Star Computer Systems Limited (SCSL)*

Jan 2026 – Present

Enterprise Software Engineering Trainee (Intensive 9-Month Full-Time Diploma, Round 70)

- Selected for prestigious, fully-funded enterprise software engineering scholarship; completed 1,000+ hours of rigorous backend and full-stack software development.
- Built and deployed 8+ enterprise applications spanning **Database Design & Implementation (MS SQL Server)**, **C# / ASP.NET Core Web APIs (.NET 9)**, **Entity Framework Core**, and **Cloud Services (Azure)**.

Headless Technology | *Web Development & IT Associate*

Jan 2019 – Dec 2020

- Developed and maintained web applications and supported IT infrastructure; managed database updates and implemented technical solutions for client workflows.

Marico Bangladesh Limited | *Management Trainee Officer*

Jan 2021 – Feb 2022

- Collaborated with commercial teams to analyze market performance data, evaluate distribution metrics, and prepare quantitative executive reports.

EDUCATION & QUALIFICATIONS

IsDB-BISEW IT Scholarship — Professional Diploma in Enterprise Systems Development (C# .NET)

2026

University of Dhaka — Bachelor of Social Sciences (B.S.S. Hons) in Economics

2014 – 2019

- Quantitative foundation in Econometrics, Mathematical Statistics, and Analytical Data Modeling.

Certifications & Languages: IELTS Band 7.5 (CEFR C1 — Proficient) • Bengali (Native) • HSC (CPSCR)

Proficient User
