PROFESSIONAL SUMMARY

Passionate and analytical aspiring Software Developer focused on building reliable, scalable, and user-centric software solutions. Developing expertise in full-stack .NET development, RESTful APIs, database engineering, and modern frontend technologies through the IsDB-BISEW IT Scholarship Programme. Driven by continuous learning, emerging technologies, and solving real-world problems through software engineering, with a strong commitment to professional growth and meaningful contributions to technology-driven teams.

FEATURED PROJECTS

Candela — HSC Physics & Math Mobile App

[Google Play](#) ■

Flutter, Dart, Mobile Architecture • **10K+ Installs** • **4.6★**

- Contributed as co-developer to a production Android educational app live on Google Play Store with **10,000+ active installs** and a **4.6★ user rating across 570+ reviews**.
- Structured core formula indexation, offline mathematical study modules, responsive mobile UI views, and optimized client navigation workflows.

ProductCatalogSPA & Product Management System

[GitHub](#) ■

C#, ASP.NET Core (.NET 9), EF Core, SQL Server, React 19, Angular

- Architected a high-throughput RESTful Web API with single-controller CRUD routing, normalized Category-Product-Brand relations, and automated database seeding (**EnsureCreated()**).
- Built dual clients: an Angular client with dynamic brand row insertions and cascading deletes, and a React 19 client with Table and Card/Grid views and instant search filtering.

TechNova — Real-Time Tech Hardware E-Commerce

[GitHub](#) ■

Node.js, Express.js, MongoDB (Mongoose), WebSockets, bcrypt

- Developed a full-stack e-commerce hardware store with product catalogs, shopping cart sessions, cash-on-delivery checkout, and normalized MongoDB document models.
- Integrated bi-directional **WebSockets (ws)** to push live inventory levels without polling; automated invoice QR Code generation and transactional emails via Nodemailer.

Employee Master-Details Enterprise Management

[GitHub](#) ■

ASP.NET Core Web API, EF Core, SQL Server, React 18, TypeScript

- Developed master-detail persistence resolving multipart payload constraints by combining binary image streams with client-serialized JSON strings (**ExperiencesString**).
- Designed a transactional **Wipe & Re-insert** pattern in HTTP PUT endpoint to synchronize child collections without orphaned records; applied **AsNoTracking()** query optimization.

PROFESSIONAL EXPERIENCE & IT TRAINING

Enterprise Systems Analysis & Design with C# .NET

IsDB-BISEW IT Scholarship Programme (SCSL) • Jan 2026 – Oct 2026

- Completed an intensive 9-month professional software development curriculum (Trainee ID: **1294926**, Round 70), dedicating 1,000+ hours to enterprise software development.
- Built and deployed 8+ full-stack applications; served as backend and database lead on the capstone **Skill-Commerce** hyperlocal marketplace.

Management Trainee Officer

Marico Bangladesh Limited, Dhaka • 2021 – 2022

- Analyzed commercial KPIs, regional market trends, and distribution performance metrics; collaborated with cross-functional commercial teams to deliver quantitative executive presentations.

HSC ICT Instructor & Hardware Systems Specialist

Academic Mentorship & Tech Services, Dhaka • Academic & Hardware Track

- Taught national NCTB HSC ICT syllabus to college students: C programming syntax, relational SQL databases, Boolean logic gates, and web design fundamentals.
- Hardware mastery: component-level troubleshooting, repair, custom PC builds, thermal repasting, and BIOS/firmware restorations for laptops and desktops.

TECHNICAL SKILLS

Backend Development

C# (.NET 9/8, .NET Framework 4.8), ASP.NET Core Web API, Minimal APIs, ASP.NET MVC 5, Web API 2, Node.js, Express.js

Databases & ORM
